

[DOJO VENUE ADDRESS]
[DOJO EMAIL ADDRESS]

Date: [DD/MM/YYYY]

Dear parent/guardian,

We are delighted to announce that we will be recommencing our CoderDojo club on [DD/MM]. We are currently looking for new young people to attend!

CoderDojo is a volunteer-led movement of **free to attend** coding clubs (Dojos) for young people aged 7 to 17.

Your daughter will learn how to code and create with technology at CoderDojo

For one girl this may be creating a website showcasing their favourite sports team, while for another it could be developing an educational app to help with learning how to spell. Learning to code gives girls the skills, knowledge, and confidence necessary to understand the increasingly digital world that we live in. And it helps them develop their resilience and perseverance, as coding is a process of step-by-step problem-solving. Attending CoderDojo also leads girls on a learning journey to building soft skills such communication, mentoring, and teamwork.

You can find more details, including dates, times, and booking information on our Dojo profile page here: [DOJO URL LINK]

If you have any questions, please get in touch with us using the email address above.

We look forward to welcoming your daughter to our Dojo!
